

1st May 2008.

Dear Mr Henry,

Thank you so very much for your lovely informative letters, I just love getting them, or also knowing that I keep a letter. I just wanted to say thank you.

The last time you asked for \$25 I did not have it, but promised to pay you \$10 on the 1st of every month. Please find enclosed cheques. I am on a pension & it is very hard to manage things on it, but I will always do my best for you. Just because I am sending \$10 per month it does not mean I will not send more when it is needed. Please continue to let me know when you are in need & I will do my very best to help you.

I am absolutely thrilled that all the work & effort & money you have put into the Kyoto Protocol has finally paid off. Australia is now on board. You have done wonderful work & I really do appreciate it all.

Delighted to hear of the government has pledged \$50 million to buy back water. Wonderful!

I wish you all the success in the world in preventing the building of the Traveston Crossing Dam. One way or another it must be stopped. Any help you need on this score, please do let me know. It must never go ahead.

You are doing wonderful things & I am honoured to play a small part in it all. Keep up the good work & God Bless you.

Lamely.

P.S. Please excuse writing, I am a very bad artist.
